

Leads 2.0

Provide Instant Quote Rates 24/7 from Your Agency Website:

Leads 2.0 gives agencies a branded link which can be added to their agency website or email signature. With one click, your client is directed to an application that returns quotes and proposals in real-time, and posts a workable lead to the referring agency's dashboard.

A Personalized Link in the form of a simple URL allows a producer to provide their clients with an application via email or website link.

Real Time Comparative Quotes from national carriers, available to insureds 24/7 from a link on your website or email signature.

Applications are Fully Field-Level Validated so that each submission contains accurate information as a starting point.

Logins for Each Consumer allow the insured to return to a personalized dashboard of previously submitted applications and review their quotes.
