

InsureZone Named to the InsurTech 100 Inaugural List; One of Just 39 US Companies to Make the Cut

October 25, 2018 09:00 AM Eastern Daylight Time

FORT WORTH, Texas--([BUSINESS WIRE](#))--“The InsurTech 100 is an annual list of 100 of the world’s most innovative InsurTech companies selected by a panel of industry experts. These are the companies every leader in the insurance industry needs to know about as they consider and develop their digital transformation strategies.” That’s according to FinTech Global; a specialist research firm that coordinated the voting panel of industry experts to compile their Inaugural List.

Included on the Inaugural InsurTech 100 list is InsureZone, a Fort Worth, Texas based holding company that combines insurance services and software development. InsureZone’s software is dedicated to growing and retaining an agency’s book of business and the company’s suite of tools are designed to make insurance operations more profitable. This suite of 13 proprietary tools has been refined over 10 years of use with help from thousands of agency users, more than \$3BN in premium quoted, and over \$300MM in premium sold. The core of the software platform is FIDO, a sales and servicing CRM toolset, which includes built-in document management, email integration, automated workflows for sales and servicing staff, online and fully automated policy servicing, licensing and E&O management, and policy payment and billing tools. Their comparative rating solution, InsureRater, is the only comparative rating tool on the market capable of handling personal, commercial and surplus lines rating from a single interface.

“We’re coming up on 20 years in this industry, and we’re honored to be a part of this list. The influx of capital into this industry focused on selling direct to small business owners is encouraging, and we’re excited to have a fully functioning SaaS solution for those in need. The other area that presents a big opportunity for InsureZone is commercial comparative rating. All management systems have a need for a commercial rating solution that offers a true step forward with a focus on simplicity. We’re excited about the partnerships we’ve formed in order to take those steps forward, and look forward to announcing those in the next few months,” says InsureZone CEO John Pergande. “There is so much potential to streamline the insurance industry, and we’re excited to see that it’s beginning to gain momentum.”
